

What do you think of your diabetes care? Patient survey results

Thank you to all those that took part in the Diabetes Patient Survey in which we asked for patients' views on the current diabetes services.

We had a very good response to the survey and the information collated will help us to improve future services for patients.

The results of the survey can be found under the Patient Zone on the North Derbyshire CCG website: www.northderbyshireccg.nhs.uk

If you would like to see the survey results in an alternative format, please contact call the Customer Care Team on Freephone 0800 032 32 35.
